CS 192 AY 2014-2015
Lessons Learned Report

Prepared by: Jaypee San Gabriel

Date: 02/19/16

Project Name: UP Bike Share Android App

Client: UP Bike Share

Sprint Number: 2

1. What were the main lessons your team learned in this sprint?

We need to communicate if we want anything done.

2.   Describe one example of what went right in this sprint.

Even if only a little, we've finally begun work.

3.   Describe one example of what went wrong in this sprint.

Some people were waiting for a go signal of sorts while others were too busy to contribute, causing a severe lack of miscommunication that severely hampered any plan.

4. What will you do differently on the next sprint based on your experience working on this current sprint?

Start communicating more properly, divide work more properly.
